Ken Elkinson

Music For Commuting Vols. 1-6

Since I read a lot lately I love to put a few (up to 5) CDs in my CD player and then read for hours on end. Ken Elkinson's Music for Commuting could just as well be described as Music for Reading or Music for Relaxing. I've listened to the entire set while reading a Kindle book and then listened while falling asleep. I find the music especially relaxing so it is probably a good solution if you tend to feel road rage a lot while driving. Basically this set is filled with dreamy ambient landscapes of sound. The music is peaceful, calming, warm, soothing and can cause you to feel elation. This CD set would also be perfect if you like listening to music in the summer while you gaze up at the stars on a dark night. I love this set of 3 music CDs and I think you will too.
