

Ken Elkinson

Link (2009)

After two albums of songs where Ken Elkinson performs magic improvising with the music of other artists, he's returned to composing his own.

With his CD, *Generations*, at number seven on the charts, he didn't rest on his laurels. This solo artist has the ability to share deep, emotional music that stirs the soul. He's done this again with his seventh CD, *Link*, containing over fifty minutes of music with twelve original solo tracks.

Just the titles of the songs will give you an inkling of what to expect, *Sunlight Through Trees* takes one on a breathless journey, while *Awakening* has us reaching for something we know is there if we can but find it. However, you needn't take my word for it. You can listen for yourself to music from *Link* as well as Ken's other CDs on his website.
