Ken Elkinson *Midnight Conversation* (Orchard)

By Regis D'Angiolini

Enchanting melodies and simple but elegant chording characterize this beautiful and cohesive debut by solo pianist Ken Elkinson. His 10 compositions presented here convey a variety of introspective moods.

On the opening track, "Waves," the tempo smoothly cascades back and forth suggesting ocean water hitting a sandy beach. On "Reflections (Forgotten Days)," Elkinson explores introspective memories as if he were rummaging through an old album of family photographs. Floating on a high-octave melody, "Danielle" is soft, gentle, and feminine. Other album highlights include the passionate "Hope" and "Words Never Spoken."

The album is soothing, dreamy, and distinctly influenced by classical music -- with elements of pop and jazz thrown into the mix. The end result is a relaxing tone poem perfect for a romantic candlelit dinner or gazing into the fireplace -- or as the backdrop to a *Midnight Conversation*.
