**KEN ELKINSON/Music for Commuting V. 1-6:  
AUGUST SON  
12/21/10**

It's not always easy to tell when Elkinson is being tongue in cheek but one thing you can be certain about is that he's serious enough about his ambient music that he gives the proper pros to Eno. And hey, while you think that's funny, Mr. My Mortgage is in Foreclosure, Eno did get \$5 million for the Microsoft Wave---and probably a few bucks hanging around with U2 and Bowie so hammer that out with your street team. Elkinson stays true to the genre, he doesn't care if you listen to this box set all in one sitting and he does deliver a program that's really been thought out. There you have it avant-gardists, the next sonic cloud for you to sink into has arrived.
