

KEN ELKINSON

"REVELRY"

August Son Productions

Ken Elkinson presents his second release featuring twelve piano solo compositions. The artist shows once again his mastery with this instrument, while at the same time providing each track with an intimate air, at times relaxing, emotional, blissful, nostalgic and even romantic, with some minimalist traits, peaceful melodies and perhaps a touch of improvisation, colored with pop, or jazz, as well as reflecting his main influences received from such artists as Keith Jarret and George Winston, among others. This is no doubt a CD within the purest style of New Instrumental Music that will certainly reach a wide audience.

ARIADNA MARTIN
