

KEN ELKINSON

"MIDNIGHT CONVERSATION"

August Son Productions/Far Blue Music

Ken Elkinson is a gifted and very young American pianist and *Midnight Conversation* is his debut CD. It contains 10 piano solos, all of them full of emotions and tenderness. The music shows intimistic details, providing a sensation of calmness that make it very pleasant to listen to. Perhaps you will find here certain influences from the early works by **George Winston**. Anyway, all songs, composed by an inspired **Elkinson**, certainly are a very good debut. His professional career has only begun but it already promises a successful future. The CD also includes a poem written by **Dan Elkinson**, **Ken's** brother.
