

Ken Elkinson Music For Commuting Vols. 1-6

I reviewed a new music release designed especially for commuters. Here in Vegas we need it daily since so many of us travel extensively not only about this awesome city but also into the surrounding countryside and back and forth into California. Ken Elkinson's newest release can be had as a 3 double cd disk 6 volume release totaling many hours of great "kill the road rage" crystal clear music. Beautifully recorded, authentically composed, and nicely packaged with art sleeves and hard gift quality outer box, this is a great set to have in your collection.

I recommend you listen to some of the samples found at Ken Elkinson.
