

Music For Commuting

By Ken Elkinson

This 6 CD set was created for commuting, but I think it fits very well into the genre of everyday life just fine. This artist is so awesome he has the ability to just reach me. PERIOD. Any day, Anytime, Anywhere, his musical smorgasbord reaches right through my soul. If I am to spacey, it grounds me, if I am to mellow it enlivens me, and if I am to upset it evens me out very quickly. I also found it is a wonderful background for automatic writing.

I do have one favorite, it is from volumes 1 and 2, track 17, it is called "Enigma", I am not sure exactly where it takes me, but I end up wanting to laugh, cry, scream and smile all at the same time. Ken's music is definitely some of the most powerfully subtle stuff I have heard in a long time. I have chosen to use some of these tracks as healing pieces for my spiritual center. I am also planning to use them as background for a few meditations. I would recommend this "otherworldly experience" to anyone waiting to welcome a new wave of healing into their life. Thanks so much Ken, you truly are gifted and your music is wicked good.

Ken's music is played regularly on www.wer1radio.com, www.indigosoulsunite.com & www.planetstarz.com so please take the time to enjoy and relax. You can learn more about this CD set and others at www.kenelkinson.com
