

KEN ELKINSON:

"OPAL"

August Son Productions

"Opal" is a work of a romantic quality, with traits of New Instrumental Music and some Jazz touches, presided by melody. The piano is the soloist instrument in the ten themes this album consists of. Each one of the tracks reaches the listener with an air full of emotions, refreshing and brimming with soft textures and colors. Aimed at a wide audience, this CD will no doubt appeal to the followers of New Instrumental Music.
